

BIG SKY CLEANERS CORP.

My name is Alexis Haffner I am owner/manager of Big Sky Cleaners I have lived in Montana For the majority of my life. Living here in the Big Sky state has inspired me to want to keep our community cleaned up and to stay beautiful like it has always been. I have a husband Dustin Haffner and three great kids Ricardo, Elizabeth, an Junior that I want to keep Montana Looking good for the generations to come. I believe that if we can start by keeping the buildings in the community clean it will help to keep the outside environment clean and healthy as well!

EXCITING NEW SANITIZING METHOD

As we go through this pandemic of Covid- 19, we have to work together to minimize the spread of this obnoxious virus. Here at Big Sky Cleaners Corp. we are doing everything we can to slow the spread of this in our community. We believe that we have found a solution that helps everyone. With a new way of controlling covid-19 by a complete fogging sanitation style, with chemicals that meet the EPA's criteria for use against SARS-CoV-2, and COVID-19.

FOGGING?

What is "Fogging"? Fogging is a misting of surfaces with the specified water and chemical combination. This procedure helps aid in the fight of multiple types of bacteria and viruses. This form of cleaning helps us to reach areas that are not easily reached by standard cleaning methods. This method of sanitizing is recommended with the many standard forms of cleaning to maximize the the effectiveness of both processes. With this new technology we are very excited to help keep contact points and other areas that hold dormant germs at bay. To schedule your free consultation for service contact us today!!!
